

## **NAUTEL PRESS RELEASE**

# **Nautel Holds First Annual Users' Group Meeting in Philippines**

*Drawing more than 100 attendees, first Philippine NUG meeting underscores Nautel's commitment to broadcasters in the country.*

**December 3, 2010**

Hackett's Cove, Nova Scotia -- Nautel Limited, in conjunction with distributor Broadcast World Philippines Systems Inc. (BWPSI), held the company's first Nautel User Group (NUG) meeting in Asia last week. The event, held in Tagaytay City on November 25<sup>th</sup>, was enthusiastically received by a packed house of over 100 engineers and broadcast executives from radio stations across the Philippines.

Topics at the NUG meeting included technology presentations on Nautel NX, NV and VS Series transmitters as well as support hints for older designs, technical discussions on lightning protection, and Nautel service and spare parts availability in the country. "The first Nautel transmitter in the Philippines went on the air in 1985" said Kevin Rodgers, head of Customer Service for Nautel. "I know, I was here, and have been back several times. This is just the latest step in upgrading our support for this vibrant market"

"We are excited to work with Nautel and pleased that the Philippines was chosen for Nautel's first NUG meeting in Asia," said Armonio Bañez, BWPSI Vice-President for Engineering. "We have installed more than 250 solid-state AM and FM transmitters in conjunction with Nautel and look forward to many more years of partnership with Nautel in serving the needs of Philippine broadcasters."

### **About Nautel**

Nautel is a global leader in the design, manufacture, sales and support of high power Radio Frequency ("RF") products for AM and FM broadcast, navigation, industrial and space-based applications. With a long history of creating highly innovative products, Nautel continues to lead the way in providing valuable new solutions for the digital radio broadcast revolution. Thousands of customers in more than 177 countries have discovered that Nautel delivers world class RF solutions - systems that meet stringent quality standards at its ISO 9001-2008 registered manufacturing facilities.
